

CS 440 Meeting Minutes

Group: 8 | Date: **Saturday, March 5, 2022** | Time: **10 AM** | Duration: **120 minutes**

Present, on time: **Madhav, Matt, Jibreel**

Present, not on time: **N/A**

Absent: **N/A**

Synopsis:

Met today to Discuss on functionalities and tried to fix each other's bugs in the code. Reassigned tasks for the upcoming week regarding both the coding and development projects, based on what was completed in the previous week. Discussed our individual progress with our coding from the past week.

Recent Accomplishments:

This week we have completed scenario 2 and assigned individual tasks for the week. We are working on the action items that are assigned from the last week to fix bugs in the code

Current Activities:

We will be working on what tasks assigned to complete this week and start to document part II of the development project. We are working on the same tasks as last week and trying to debug the code we have right now.

Action Items:

Madhav: Implement "View Messages" functionality.

Matt: Implement "Group Run" functionality.

Jibreel: Implement and "Send Messages" functionality.
