

CS 440 Meeting Minutes

Group: 8 | Date: **Saturday, March 12, 2022** | Time: **10 AM** | Duration: **120 minutes**

Present, on time: **Madhav, Matt, Jibreel**

Present, not on time: **N/A**

Absent: **N/A**

Synopsis:

Met today to Discuss on functionalities and tried to fix each other's bugs in the code from the previous weeks. We all made a significant improvement on the coding project. We talked about the development project which is due next week and discussed the requirements we need to complete our development project. Reassigned tasks for the upcoming week regarding both the coding and development projects, based on what was completed in the previous week.

Recent Accomplishments:

This week we have completed fixing the majority of bug's that we have in individual functionalities and assigned individual tasks for the week. We are working on the action items that are assigned from the last week to complete the entire debugging of the code.

Current Activities:

We will be working on what tasks assigned to complete this week and finish to document part II of the development project. We are working on the leftover tasks from last week and trying to develop the next functionalities in our coding project.

Action Items:

Madhav: Complete "View Messages" functionality and assigned parts for development project.

Matt: Complete "Group Run" functionality and assigned parts for development project.

Jibreel: Complete "Send Messages" functionality and assigned parts for development project.
