CS 440 Meeting Minutes

Group: **8** | Date: **Saturday, March 19, 2022** | Time: **10 AM** | Duration: **120 minutes**

Present, on time: **Madhav, Matt, Jibreel**

Present, not on time: **N/A**

Absent: **N/A**

Synopsis:

Met today to Discuss on functionalities and tried to fix each other's bugs in the code from the previous weeks.We all made a significant improvement on the coding project. We talked about the development project and completed the report and summary for the development project. Reassigned tasks for the upcoming week for the coding part based on what was completed in the previous week.

Recent Accomplishments:

This week we have completed the development project report and wrote a description summary on the development project. We have completed fixing the majority of bug's that we have in individual functionalities and assigned individual tasks for the week. We are working on the action items that are assigned from the last week to complete the entire debugging of the code.
Matt worked on parts 9-12, Jibreel worked on parts 13-16, Madhav worked on parts 17-20. After the 3 parts were completed, everyone pitched in to part 21.

Current Activities:

We will be working on what tasks are assigned to complete this week. Assigned new functionalities and will be working on the other features which are planned in this release. We are working on the leftover tasks from last week and trying to develop the next functionalities in our coding project.

Action Items:

Madhav: Complete "View Messages" functionality and think of ideas of new features.

Matt: Complete "Group Run" functionality and think of ideas of new features.

Jibreel: Complete "Send Messages" functionality and think of ideas of new features.
