CS 440 Meeting Minutes

Group: **8** | Date: **Saturday, April 09, 2022** | Time: **10 AM** | Duration: **120 minutes**

Present, on time: **Madhav, Matt, Jibreel**

Present, not on time: **N/A**

Absent: **N/A**

Synopsis:

Met today to Discuss on the next features for the upcoming release. We all made a significant improvement on the coding project. We talked about the development project and planned on how to complete the report. Reassigned tasks for the upcoming week for the coding part and development part based on what was completed in the previous week.

Recent Accomplishments:

This week we have been working on the test cases and the other features that are required for the next release. We have completed fixing the majority of bug's that we have in individual functionalities and assigned individual tasks for the week.

Current Activities:

We will be working on what tasks are assigned to complete this week. Assigned new functionalities and testing that is required for this release. We are assigning parts to our development and coding reports which are due in the coming weeks. We are working on the leftover tasks from last week and trying to develop the next functionalities in our coding project.

Action Items:

Madhav: Complete Part 4 for development project and think of ideas for GUI .

Matt: Complete Test cases for coding project think of ideas for GUI .

Jibreel: Complete Test cases for coding projects and think of ideas for GUI.
