Present, not on time: **N/A**

Absent: **N/A**

Synopsis:

Met today to finalize the project description and summary due at midnight on 2/19. Reassigned tasks for the upcoming week regarding both the coding and development projects, based on what was completed in the previous week. Discussed our individual progress with our coding from the past week.

Recent Accomplishments:

Matt completed parts 1 and 2 of the project description. Jibreel completed parts 3 and 4 of the project description. Madhav completed parts 5 and 6 of the project description. Everyone worked together to complete parts 7 and 8 of the project description. Everyone also worked together to complete the project description summary. Jibreel and Madhav gave a successful presentation on Monday.

Current Activities:

Jibreel found a bug in the server code that is preventing users from continuing into the app after logging in. Matt is working on resolving this bug and displaying the appropriate options/responses upon login. Madhav has set up the jira sprint for week 7 and has thought up of basic logic to complete his task. Everyone is focused on completing their action items so that the group can be ready to demonstrate their coding progress on Friday.

Action Items:

Madhav: Implement "Friends List" and "Add Friends" functionalities
Matt: Fix the bug in the server code, Implement "View Friend Requests" and "Friend Request Notification" functionalities
Jibreel: Implement "Send Message" and "View Messages" functionalities
